

Birdy straw toys

Straws with flexible tips

Small cable ties

Treats

Trim straws (not on the flexible side) to suit the size of your bird.

Bend the re-sized straws at the flexible area for evenly sized lengths either side

Cable tie the straws at the bent area for a pom-pom of straws!

If you like, squeeze a few small treats into some of the straws

You can give this to your bird as a foot toy or hang it in the cage.
