

Box forager for kitties!

You will need:

A shoe/tissue box without the top

Toilet rolls

Non-toxic wood glue

Glue the toilet roll rims to the insides of the box and each other.

Make sure they are tightly packed in the box.

Once the glue is dry, sprinkle some pellet food OR treats OR favourite small toys and maybe even some catnip into the rolls.

Place the box on its side, or flat depending on how hard you want to make it for your feline friends!

Enjoy!
