

Ossobello Dog and Cat chews:

Ossobello treats are designed with dental health in mind. Thanks to their special shape, these treats assist with tartar control and in maintaining healthy gums. Ossobello is made from 100% Natural ingredients and is free from animal proteins (a valid alternative for allergic dogs), and Gluten. They also contain no synthetic preservatives or colourants. They are high in fibre, assisting with a healthy digestive track and as it is Italian, it should be as good as pizza.
