

# Dried Sweet Potato Dog Chews

## You will need:

1 (or more) sweet potatoes  
1 (or more) baking sheets  
Knife  
Oven

## Make it:

1. Wash the sweet potatoes. Leave the peels on the sweet potatoes.
2. Slice the sweet potatoes lengthwise into approximately  $\frac{1}{4}$  inch thick slices.
3. Place the sweet potato slices on the cookie sheet and bake in a 250 degree oven for two hours.
4. Remove the sweet potato slices from the oven and turn them over on the cookie sheet. Bake the sweet potato slices for two more hours. (Total baking time: four hours.)
5. Remove the dried sweet potatoes chews from the oven and allow them to cool.
6. Give to a very deserving doggie. Repeat.

You should store the dried sweet potato chews in an airtight container in the refrigerator or for a little longer in the freezer.
